11:06 AM  
There?

11:50 AM  
I sent an email over to Aisha. I assume you received it.

We need to discuss it.

Held several extended calls over skype discussing the business, providing historical performance, KPIs, detail breakdown of current run rate...

Spent significant time walking through various aspects of the business, including pricing strategies, business model, expansion plan, lesson learned, in depth overview of the proprietary technology platform. All within the bounds of NDA and with intended purpose of Sale.

Reached out multiple times to address the breach of NDA and made efforts to resolve the matter privately but no efforts were made by Adeem or his staff.
